Summary

Computer Science student with a strong foundation in Frontend Web Development and data analysis. Proven leadership experience managing cross-functional technical teams and organizing large-scale collegiate events. Recognized nationally through Smart India Hackathon, Adobe GenSolve and Amazon ML Summer School.

Education

VIT Bhopal University Sep 2023 – Present
B.Tech. CSE (AI & ML) CGPA: 8.20

Work Experience

Data Analyst Intern April 2026 – June 2026
Bluestock Fintech Pvt. Ltd. Remote

- Extracted, cleaned, and transformed mutual fund data using SQL to build a centralized database for business analysis.
- Developed interactive Python visualizations to track AUM trends, summarizing key investor demographics for core stakeholders.
- Collaborated with the reporting team to automate data workflows and streamline recurring reports.

Leadership & Extracurricular

Team Lead – Web Development Team Dec 2024 – Apr 2026
iCreate Technical Club

- Led a cross-functional team of 15 developers, conducting weekly sprint planning and unblocking technical bottlenecks to ensure project delivery.
- Spearheaded the successful rollout of 5+ digital initiatives, ensuring 100% uptime for the club's portal during peak event registration periods.
- Bridged the gap between technical execution and the club's overarching strategic goals, managing task allocation and timelines.

Student Coordinator Dec 2023
Student Welfare Committee – Hustle

- Coordinated logistics, budgeting, and venue scheduling for a major college event with nearly 500 participants.
- Designed and implemented a streamlined registration workflow that reduced participant check-in time and improved overall attendee experience.

Projects

SONICSPLIT Oct 2025 – Jan 2026
Personal Project

- Managed the end-to-end development of an audio processing application that separates musical tracks into 4 distinct stems with over 95% accuracy.
- Defined project requirements and designed an interactive visualization dashboard, prioritizing features to ensure smooth processing within strict memory limits.

SONICJAM May 2026 – July 2026
Personal Project

- Directed the development of a real-time collaborative streaming platform, ensuring sync audio playback for multiple users.
- Coordinated the integration of a responsive frontend with asynchronous data streams to deliver a seamless and engaging user experience.

Achievements

Amazon ML Summer School Jul 2026 – Present
Amazon

- Selected through a multi-stage process: 134,421 registrations → 31,821 shortlisted after resume/SOP screening → final selection after the ML + DSA assessment.
- Participating in intensive mentorship sessions focusing on the real-world application of scalable data solutions and predictive modeling.

Smart India Hackathon Dec 2025
Government of India Top 500

- Led a six-member team to finish in the Top 500 among 1.4 lakh+ teams nationwide by architecting an AI-driven traffic management roadmap.
- Presented the business case to government stakeholders, emphasizing cost-efficiency and a projected 20% reduction in emergency response times.

Adobe GenSolve Hackathon Aug 2024
Adobe Top 5 Percentile

- Drove the end-to-end product lifecycle from ideation to prototype, balancing technical constraints with user-centric design principles.
- Directed a four-member team to develop a predictive ML solution achieving 92% accuracy, securing a Top 5 Percentile finish.

Skills

Core Competencies: Project Management, Cross-Functional Leadership, Event Coordination, Data Transformation

Programming: Python, JavaScript, C++, SQL

Tools: Excel, Pandas, Matplotlib, React, Git

Certifications

Google IT Support Certificate (Google) **Applied Machine Learning in Python** (Coursera)
